Professional Summary:

Software Engineer with 6 years of experience in full-stack development, specialising in building scalable, efficient web applications using JavaScript, Golang, and cloud technologies. Proven track record in leading teams, enhancing system performance, and driving innovation.

Professional Experience:

Software Engineer, Microsoft (Sept 2021 - Present)

- Built, maintained and tested client-side features using React, React Native and TypeScript, contributing to Microsoft's ecosystem.
- Implemented advanced logging and monitoring to optimise system performance to ensure consistent quality of service.

Software Engineer (Contract), Rundoo (Apr 2022 - Apr 2024)

• Developed and launched a point-of-sale system with financial reporting and banking capabilities using JavaScript and Golang, significantly expanding the client base.

Software Engineer, ProdPerfect (Oct 2019 - Oct 2021)

- Built and deployed a user interaction dashboard using JavaScript and Python, significantly
 decreasing test development lead times for QA Engineers.
- Led a team of engineers to develop test solutions, increasing the customer base by 20%.
- Designed and implemented automation scripts for test configurations, enhancing developer productivity and overall team efficiency.

Software Engineer, Andela (Oct 2018 - Oct 2019)

- Designed and built a technical assessment application for recruitment screening, cutting recruitment costs by over 90%.
- Trained and mentored multiple teams of junior engineers in full-stack application development, impactfully accelerating their development skills.

Skills:

- Programming Languages (Frontend): JavaScript (TypeScript, Next.js, React, React Native)
- Backend and scripting: JavaScript (TypeScript, Node.js, Nestjs), Golang, Python
- **Databases:** PostgreSQL, MongoDB
- Testing Tools: Jest, TestCafe, Cypress, Playwright
- DevOps Tools: Kubernetes, Docker, Git, CI/CD
- Cloud Services: GCP (Tracing, Monitors, Logs)

Education:

- Master of Science: Information Technology (Sept 2020 May 2024)
 Carnegie Mellon University
- Bachelor of Science: Computer Science (Sept 2014 Nov 2018)
 Jomo Kenyatta University of Agriculture and Technology, Kenya
